

# Puppet delight

Swazzle Puppet Company presented B.A.R.K. the robot dog at the Malibu Library on Monday afternoon. Children were mesmerized by the adventures of Rachel the Cat, Rivet the Dog and B.A.R.K. the robot dog. After the performance, puppeteer Rachel Herrich demonstrated to the children the different types of puppets—rod puppets, hand puppets and the most difficult, yet versatile, the rod and hand puppets. The group had the opportunity to practice puppeteering moves with their hand which, combined with a sock, would make their very own sock puppet! Children's Librarian Leena Walker once again surprised the children with a gift of books and a stuffed animal of their choice at the end of this event.

Above: Rachel the Cat and Rivet the Dog delight the children at the Malibu Library on Monday afternoon.

Right: After the puppet show, puppeteer Rachel Herrich had the children practice puppeteering with their hand, counting to 10 in both English and Spanish.

Puppeteer Rachel Herrich demonstrates how Rivet is a rod puppet as well as a hand puppet, the most versatile of the puppets to work with.

Children and their families gathered for Swazzle Puppet Companies presentation of "B.A.R.K. the Robot Dog" in the Community Room at the Malibu Library.

Little firefighter Luke France was transfixed as he watched the Swazzle puppet show at the Malibu Library on Monday afternoon.
